Tom Argent to head up Concept's new Northern office

CONCEPT VEHICLE Leasing has announced that it is set for expansion following the launch of its new branch in Chesterfield, Derbyshire.

The new northern base will be headed up by Tom Argent as branch director, and will be used to build further on client relationships in the Midlands and North of England.

Argent, who joined Concept in 2004 as a member of the sales team, said: 'This is a really exciting opportunity for both myself and the company.

The new office is conveniently located close to the M1 motorway, so it's going to be much easier to deliver a more personal service to those clients based in the North of England, some of whom are literally on our doorstep.'

Concept said that it is also planning further expansion of its products and services such as daily rental and accident management, along with further enhancements to the interactive website which features instant on-line quotations.
